Professional Summary

7+ years of experience in Linux server administration with a strong focus on performance, uptime, and security. In parallel, developed practical expertise in modern DevOps tools and cloud-native workflows through self-driven home lab projects involving CI/CD, Docker, Terraform, and AWS.

Technical Skills

- DevOps Tools: Docker, Jenkins, GitHub Actions, Ansible, Terraform, Kubernetes, ArgoCD
- Cloud Platforms: AWS, OpenStack
- Monitoring: Prometheus, Grafana, Nagios
- Scripting: Bash, Python
- Web Servers: Apache, Nginx, Litespeed
- Control Panels: cPanel, Plesk, Interworx
- Operating Systems: Rocky Linux 9, RHEL 7, Ubuntu, Windows

Home Lab Projects – DevOps & Cloud

- CI/CD Pipeline for Portfolio Website – Designed and deployed a personal portfolio site with React (frontend) and Node.js + MongoDB (backend). Implemented containerization with Docker. Automated the CI/CD pipeline using GitHub Actions for the frontend and backend, deploying to AWS EC2
- Infrastructure as Code with Terraform-Jenkins – Provisioned EC2 instances, security groups, and S3 buckets using Terraform scripts.
- Microservice-based e-commerce application on AWS EKS using a GitOps workflow – Project consists of multiple services (UI, catalog, cart, orders and checkout) built in Java, Go and Node.js, each packaged as its own Helm chart. Terraform to provision the underlying AWS infrastructure. The CI/CD pipeline, implemented with GitHub Actions, automatically detects changes, builds/pushes Docker images to Amazon ECR and updates Helm chart values, after which Argo CD synchronizes the changes to the cluster.

Work Experience

- Systems Engineer – VIPoint Solutions, Kochi

June 2021 – Present

- Administered and monitored over 100+ Linux-based web servers with a focus on uptime and performance.
- Implemented server hardening techniques and continuous security auditing.
- Led website migrations and handled customer issues across support tickets, calls, and chat.

- Software Engineer (Server Administrator) – Poornam Info Vision (Bobcares), Kochi

Feb 2018 – June 2021

- Managed hosting support and server infrastructure for global clients.
- Troubleshoot CMS issues including WordPress and Magento.
- Worked with OnApp and virtualization technologies for managing customer cloud environments.

Certifications

- Red Hat Certified Engineer (RHCE)
- Red Hat Certified System Administrator (RHCSA)
- cPanel & WHM Administrator Certification: 9b9e-a6e3-0aab-e6df
- cPanel Professional Certification: be37-d93e-3937-8a69

Education

- M.Tech in Optoelectronics – University of Kerala (2014–2016) – 81%
- B.Tech in Electronics and Communication Engineering – CUSAT (2009–2013) – 74%
